

# Word Art Plan

I'm trying for an almost glitch like effect  
colours will be bright yet on the darker  
end for the background, and the same colour  
with different shades will be for the text  
• Shades of pinkish red will be for links  
• Yellowish green for details  
• Purplish blue for <sup>world</sup> causes  
• <sup>world</sup> causes will be on the circles, which I'll try  
to kind of "pop out" of the screen.

There will probably be more lines on the  
actual thing.
